## ASCA Sheep Farm Trial Course Description

Kim has decided to show hamsters and the prestigious “Rodent Rally” is the same weekend.. Since Kim has to prepare Fluffy and Chewie for the show you are all pitching in to get the new sheep vaccinated, medicate hooves and get them grouped and ready for the trial. Joe graciously offered to help be in charge of everything. The reason the advanced handlers have to go out into the pasture is because he couldn't make up his mind whether it was OK for the sheep to dry off in the arena or not. The open handlers do not have to go out because someone convinced him not to worry about it. :)

- Handler and Dog will be waiting at Post A

- 8 head of stock will be set into Arena 1

- Open Handlers may walk to Post B and send their dog to gather sheep to them (25 available points)

- Advanced Handlers must stay at Post A and send their dog to gather sheep to them(25 available points)

-After sheep have been gathered to the handler, the dog and handler will take stock to the 12 foot entrance of the chute (the one with Guillotine gates). Handler will mark 3 head of sheep and than push all sheep through the chute exiting the 18” exit. (25 available points)

-Put all stock through the foot bath (must enter through 7' entrance and exit 18” exit). (15 available points)

- Open Handlers and Dog will take stock out of the chute and hold all stock at the marked “drying area” for 15 seconds or until the judge calls “That's a Hold” (15 available points)

- Advanced handlers and Dog will take stock out of the chute, take them out of the main gate and into the 5 acre field. They will fetch or drive sheep to Cone C and hold all stock there for 15 seconds or until judge calls “That's a Hold”. (15 available points)

- Once advanced and open handlers have held their stock they will then put the 8 head of stock into 12' x12' pen #2.

- Sort 3 marked head of stock into pen #5.

- Sort 3 head into pen #4

- Sort 2 head into pen #3

- Move stock from pen #' s 3,4, and 5 and place into pen #2. (25 available points for the above pen work)

End of Trial!

Time Limit is 15 minutes with a 3 minute warning called. Please note, all gates and guillotine style gates must be closed before time is up

To earn a qualifying score Open and Advanced Farm Trial Dogs must earn 70% or more of the total points (91/130). Any ties will be broken by the highest score under the Pen Work section. A dog must have two qualifying sheep Open Farm Trial Dog scores under two different judges to enter in the Advanced Farm Trial Dog class.

Please see diagram of course on next page. There will be ample opportunity to check gates and pens during the handler's meeting.
